SUMMARY

Computer Science student with a strong interest in software development and problem-solving. Skilled in programming and basic web development with hands-on academic projects. Seeking an internship opportunity to apply technical skills, gain industry experience, and contribute to real-world projects.

EDUCATION

University of Central Punjab, Lahore

Oct 2022 – present

Bachelors in computer science

CGPA: 3.65

- **COURSES OF INTEREST:** ITC (c++) , PF , OOP , DSA , DATABASE, Web Development

Punjab College, Lahore

2020-2022

F.Sc. Pre-Medical

PROJECTS

Task Management Website

May 2026

- Built a full-stack task management web application using **React Vite, Node.js, Express.js, and MongoDB**.
- Implemented CRUD operations to add, update, delete, and manage tasks.
- Developed responsive UI with task status tracking and dynamic table rendering.
- Connected frontend and backend using REST APIs and `fetch()`.
- Used MVC architecture for backend organization.
- Deployed project online and managed source code with GitHub.

PakClassified – Classified Ads Website

May 2026

- Developed a classified ads web application where users can post, edit, and manage ads.
- Built frontend using **React Vite** and backend using **Node.js, Express.js, and MongoDB**.
- Implemented CRUD functionality, category-based listings, and responsive UI design.
- Connected frontend and backend through REST APIs using `fetch()`.
- Used MVC architecture for backend development and database management.
- Managed project version control with GitHub and deployed online.

User Login Verification System (C++ Project)

Jan 2026

- Developed a basic **User Login Verification System in C++** to authenticate users using username and password
- Implemented **conditional statements (if-else logic)** to validate user credentials
- Applied **basic programming fundamentals** including input handling, loops, and decision-making logic
- Designed a simple authentication flow to allow or deny access based on correct credentials
- Strengthened understanding of **logic building and control structures in programming**

CERTIFICATIONS

- Web development MERN Stack course (From EVS)

- Work smarter with Microsoft powerpoint
- Work smarter with Microsoft excel
- Use Canva to design digital course collateral
- Selling online

SKILLS

Technical Skills: C++ , OOP , PF , ITC ,SQL , **HTML , CSS, React ,Bootstrap , Mongodb , Express, node.js**

Interpersonal Skills: Strong Communication Skills , Teamwork & Collaboration , Customer Handling & Relationship Building , Problem-Solving Ability , Time Management , Active Listening , Adaptability & Quick Learning
